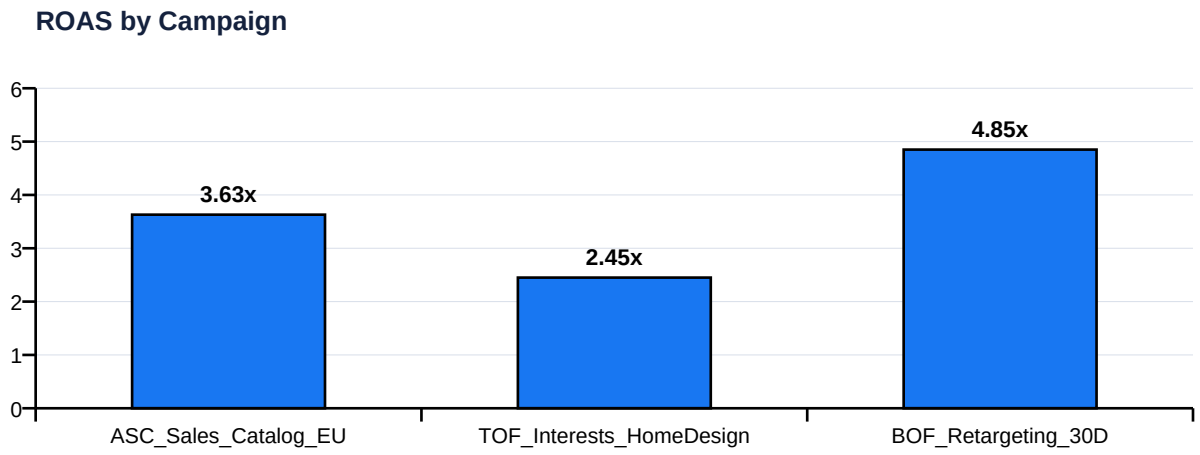
ROAS Comparison



Key Takeaways

- **Scale what works:** BOF retargeting delivers the best ROAS (4.85x) and lowest CPA ($21.67) on only 15% of spend, but its audience is limited to 30-day cart abandoners, so headroom is capped.
- **Advantage+ is the engine:** ASC_Sales_Catalog_EU produced 60% of purchases and 62% of revenue at a 3.63x ROAS, above the 3.52x blended average.
- **Review cold targeting:** TOF_Interests_HomeDesign has the lowest CTR (1.48%) and highest CPA ($36.67). Test new audiences or creatives before adding budget.
- **Sample size caution:** With 15 total purchases (3 each in two campaigns), results are directional; confirm with more data before major reallocation.
